The Amazing Legume

The Amazing Legume Cooking with Lentils, Dry Beans and Dry Peas, now in its eighth printing, was first published in Canada by the Saskatchewan Pulse Growers' Association in 1984. Written by Alice Jenner, internationally recognized cookbook author and nutritionist, the book offers recipes with a remarkable combination of flavor, appearance, economy and nutrition. The recipes are designed to be used by vegetarians and non-vegetarians, as both family and company fare.
