### A Comprehensive Guide to Pulse Production in Saskatchewan

---

Our goal is to provide a "farmer friendly" comprehensive guide to the production of pulse crops in Saskatchewan. Funding for the production of the original manual was provided by the Agriculture Development Fund and the Saskatchewan Pulse Development Board through a producer check-off of pulse sales, and cost recovery through sales of the manual. The manual will continue to be updated to keep it current with changes in technology.

This second edition of the Pulse Production Manual was written by Mr. Garry Hnatowich, P.Ag., edited by Dr. Al Slinkard, and produced by Food Focus Saskatoon Inc. and Colorshape Communications of Saskatoon.

The original manual was written by Dr. Brenda Frick, Saskatoon in close cooperation with Dr. Al Slinkard and Dr. Bert Vandenberg, of the Crop Development Centre, University of Saskatchewan, Saskatoon.
